

Odyssey Research Programme

Briefing
18 Mar 2021

Koh Teck Seng

SPMS Odyssey Programme

- To enable students who are passionate about science to pursue research and scholarly activities, and imbue their undergraduate journey with the same spirit of discovery and adventure.
- Two threads:
 - Research (Odyssey Research Programme)
 - International Competitions

Odyssey Research Programme

- Research with SPMS Faculty members
- Special terms 1+2; Total of 12 weeks or 3 months
- Internship allowance = \$500 / month, subject to satisfactory conduct and progress
- Note: some scholarships do not allow students to be paid. E.g. CNYang, Nanyang scholarships.

(on website, it states Nanyang scholarship holders are eligible for allowance; that is wrong and will be corrected soon.)

Eligibility

- Good cGPA (≥ 4.0)
- Prior undergraduate research experience, or strong faculty recommendations
- For students on scholarship, need to consider terms of scholarship to determine if eligible for research allowance. (E.g. CNYang, Nanyang scholarship holders not eligible.)

Timeline and Application form
